Fun with Robots !

"Robot party" … and … "Robots making robots" … images generated by A.I / Machine Learning !

Sunday 18th September 2022: 11 am to 3 pm

Hawthorn Arts Centre: 360 Burwood Road, Hawthorn, 3122
Room: Community Arts Space

Play with and learn about robots … with activities for newcomers and kids.
The Connected Community HackerSpace (CCHS) is hosting an informal open day where the theme is all about robotics, automation, programming, electronics and Artificial Intelligence. Activities include …

- Learn to program simple robots
- Modifying Ikea train sets
- Discover different types of robots
- Self-driving 1/16 scale model cars
- Building D.I.Y electronics kits
- Lego Mindstorms

For event details and registration visit … **https://tinyurl.com/funwithrobots**

The CCHS is a local community club that is open to the public and located at 5 Kent Lane, Hawthorn. This social group holds many regular sessions every week with an aim to have fun learning and sharing knowledge with a focus on technology. For more details, visit … **https://hackmelbourne.org**

Our workshop has a large range of equipment including laser cutters, 3D printers, CNC mill, welding, electronics and power tools. Tours available upon request.
